GARDEN VISION

If you plant a healthy seed
Nurture it
Good things will grow.

We have many talented students, staff, residents and resources within our community.

Let's connect them…
and watch the goodness grow!

Westlake Council of PTAs

Westlake High School. (9-12)

Lee Burneson Middle School (7-8)

Dover Intermediate School (5-6)

Westlake Elementary School (preK-4)

Westlake Early Childhood

Thank you for your time and interest in our program.
As with all things,
it will take time
to make our vision a reality.
We hope to see you…
in the garden.

To plant a garden is to believe in tomorrow.
Audrey Hepburn

IN THE GARDEN

The dream is to create a space which invites our schools and community to learn, share and grow with one another in the greatest place…our gardens.

Garden Sponsorship

By becoming a garden sponsor you help to ensure that we have the necessary means to create, grow, sustain and harvest healthy produce to share within our community. While encouraging our students, staff and residents of all ages to share their stories, history and knowledge of gardening and grow closer together as a community… in the garden.

Sponsorship Levels

Sprout $25.00
Seedling $50.00
Vegetative $75.00
Budding $100.00
Flowering $125.00

GARDEN VISION

Westlake is a community of young, old and everything in between. History is all around us and is ever changing. Our schools are growing with their music, performing arts and athletic programs where our students are guided by gifted instructors that showcase the talents of all throughout the year.
Our school gardens are growing at each building to help gain a better understanding of our environment as well as our health within and throughout our community.

Our Vision

Is to connect these treasures and enhance the connection of our students, our residents and our community so that ALL may enjoy them.
Wouldn't it be amazing to hear our schools music performances outside in a garden or have a senior resident teach what they know about gardening to our students?
To harvest our gardens and providing food to those in need within our community?
It's a grand vision, yet one we feel is attainable.
