

Shariff N. Barakat

Partner

sbarakat@akingump.com

Washington, D.C.

+1 202.887.4030

Key Experience

- Focuses on domestic infrastructure and renewable energy projects.
- Represents developers, sponsors, tax-equity investors, lenders and other stakeholders in the acquisition, development and financing of power generation and infrastructure projects.

Practice

Shariff represents clients involved in the acquisition, development and financing of power generation and infrastructure projects, with a particular focus on tax equity financing. His experience spans billions of dollars in closed and funded investments supporting gigawatts of renewable energy, including large and small utility-scale solar and wind projects, large and small residential solar portfolios, community solar projects, C&I solar projects, geothermal projects and biomass projects. More recently, Shariff has also worked on carbon capture, hydrogen and waste-to-product projects currently under development.

Prior to joining Akin Gump, Shariff practiced as a project finance lawyer in Washington, D.C. Additionally, Shariff worked at a large consulting firm where he provided tax advice and opinions, financial modeling services and valuation services in connection with renewable energy projects. He also provided tax advice and opinions on a number of large M&A and tax-advantaged leasing transactions.
