

***Meet a few of our friends who are waiting for a holiday miracle of their own...***

**Jack and Princess:** Jack is a 4 1/2-year-old Chihuahua/Pug mix who is bonded with 6 1/2-year-old Chihuahua mix Princess. A classic case of dogs who don't "show well" in the shelter environment, we keep a curtain on the window of their room since strangers peering in makes them nervous. Once they get to know you though, they are lovable and friendly. They enjoy playtime, snuggling on laps and going for walks. Jack loves to chase a ball and Princess gets "the zoomies" as she zips around the yard. We'd love to see this sweet pair get the love they deserve.

**Gigi:** We adore this 7 ½ year old Calico's fun personality. A little bit sweet, a little bit sassy, Gigi doesn't want to share you with kids, dogs or other cats. Since her front paws have been declawed, she will need to be kept indoors at all times. She came to us with a history of urinary tract infections which our medical team has been able to successfully manage with a prescription diet (offered to her adopters at cost through our Public Veterinary Hospital).

***Please help us spread the word about our adoptable pets!***
