AUGUST 26-SEPTEMBER 6

Foresight

1

DEFINITION

Consideration of the consequences of one's actions; thinking ahead.

2

PRACTICAL EXAMPLES

- I think about how long I will need to get a project done or how much time it will take to study for a certain test.
- I prepare items for the next day (e.g., lunch, sports equipment, assignments, computer, etc.).
- I have an awareness of what's coming up on the family schedule.

PRAYER

Dear Lord, please increase in me the virtue of foresight. Help me to think ahead today so that I can be responsible in my duties, respectful toward those who are counting on me, and ready to give of myself for the good of others. Amen.
