Guidelines from the Layette Department

1. We give ONE layette per newborn. When possible, each layette is supplemented with good used clothing ranging in size from three to twelve months. If a mother receives a layette in the hospital, she cannot receive another one at the Center.
2. To receive a layette at the Center, the mother must have:
 - a. Christ Child Referral form and signed by an authorized person
 - b. The baby's birth certificate
 - c. The birthdate of the parent/guardian
