Portion of Current **"NRS 534.090 Forfeiture and abandonment of rights." Subsection 3** which relates to the extension of time and the criteria for which the extension is considered…

"…In determining whether to grant or deny a request, the State Engineer shall, among other reasons, consider:

(a) Whether the holder has submitted proof and evidence that the holder is proceeding in good faith and with reasonable diligence to resume use of the water beneficially for the purpose for which the holder's right is acquired or claimed;

(b) The number of years during which the water has not been put to the beneficial use for which the right is acquired or claimed;

(c) Any economic conditions or natural disasters which made the holder unable to put the water to that use;

(d) Whether the water right is located in a basin within a county under a declaration of drought by the Governor, United States Secretary of Agriculture or the President of the United States;

(e) Whether the holder has demonstrated efforts to conserve water which have resulted in a reduction in water consumption;

(f) Whether the water right is located in a basin that has been designated as a critical management area by the State Engineer pursuant to subsection 7 of NRS 534.110;

(g) The date of priority of the water right as it relates to the potential curtailment of water use in the basin;

(h) The availability of water in the basin, including, without limitation, whether withdrawals of water consistently exceed the perennial yield of the basin; and

(i) Any orders restricting use or appropriation of water in the basin.

The State Engineer shall notify, by registered or certified mail, the owner of the water right, as determined in the records of the Office of the State Engineer, of whether the State Engineer has granted or denied the holder's request for an extension pursuant to this subsection. If the State Engineer grants an extension pursuant to this subsection and, before the expiration of that extension, proof of resumption of beneficial use or another request for an extension is not filed in the Office of the State Engineer, the State Engineer shall send a final notice to the owner of the water right, by registered or certified mail, that the water right will be declared forfeited if the owner of the water right fails to file the required proof of resumption of beneficial use or an application for an extension of time to prevent forfeiture within 30 days after the date of the final notice. If the owner of the water right fails to file the required proof of resumption of beneficial use or an application for an extension of time to prevent forfeiture within 30 days after the date of such final notice, the State Engineer shall declare the water right, or the portion of the right not returned to beneficial use, forfeited."
