

Thriviving Wisconsin Calendar of Events 2025

For additional external FRC trainings or to register for 'PDS' trainings, visit the FRC Professional Development System at:
<https://uwm.edu/wcwpds/family-resource-center-professional-development-system/>

In the **Who Should Attend** column, some of the professional development opportunities have a “Tier” and number listed. These tiers were developed to help guide family support professionals and supervisors in building foundational knowledge, ability, and skills to support them in their professional role. Please feel free to reach out to julie@thrivingwi.org if you have any questions.

Tier 1: Foundational training that every professional should complete (recommended within the first 2 years of employment)

Tier 2: Trainings that are recommended after foundational trainings complete

Tier 3: Topic specific training available to support continued growth
