

Pathfinders Internship Update

“Go and make disciples of all nations” was Jesus’ final charge to His followers. LBBC has been doing that for the last 63 years. Since 2014, we’ve also pursued that calling through focused discipleship programs. Solid Rock School of Discipleship began in 2014, followed by the Ministry Staff program in 2018. In 2024, the two programs came together as Pathfinders. A significant amount of good fruit has come from these programs over the years.

Grant and Teirrah Wennerberg were brought on in 2021 to direct Solid Rock and Teirrah later, Pathfinders. They guided these programs through several seasons of disruption, always with a deep passion for the students and interns involved. Now that they are moving on from LBBC, the discipleship program is on hold. **The concept is not being abandoned; it is going into hibernation for a season of discernment.**

We’ve begun looking closely at what makes the summer Leaders in Training (LIT) program so meaningful and fruitful for high school students, many of whom become summer staff.

There is something in LBBC’s original DNA that God has used for decades to grow and equip young people for lives of disciple-making ministry. We believe that is evident in the LIT experience, and we’re trusting God to reveal how He wants to use it as we discern what comes next.

Please pray for this discernment process, and pray that LBBC’s new Executive Director will have a deep passion for this purpose and a desire to see it continue to bear fruit in the lives of young people.
