

# **NEW SIDE BY SIDE** **REPLACEMENT**

Looking for 1 or 2 Utility Side by Sides to replace our old worn out Kawasaki Mule. Side by Sides offer much more safety and flexibility than vehicles when working around camp.

- Need to stay with the major name brands of Polaris Ranger, Kawasaki Mule, Yamaha Viking, or Can-Am Defender.
- Engine size around 500cc but not larger than 800cc
- Must be a utility side x side, no sport models.
- Would prefer the shorter 2 seater wheelbase, than a longer 4 seater wheelbase.
- Optional accessories like winch, plow, windshield would be great, but not required.
