VACCINE INVENTORY MANAGEMENT

Help Us Build a Statewide Solution for Vaccine Inventory Challenges!

You Are Invited!

Participate in a new Quality Improvement (QI) pilot focused on **vaccine inventory management** developed in collaboration with the DOH and WVA. This is an opportunity to receive support in addressing persistent challenges like **ordering caps**, **high waste**, and **running out of vaccine**.

Why You?

We are co-creating this solution with clinics like yours to make sure it works in the real world and can be scaled across the state. You'll be part of a collaborative and supportive process that respects your time and expertise.

Why Participate?

- **Improve inventory systems** at your clinic
- **Ensure correct billing** of vaccines
- **Save time** and reduce frustrations related to ordering and stock management
- **Identify and address pain points** with expert support
- **Help shape the future** of the Childhood Vaccine Program (CVP)
- **Physicians can earn MOC/MC-FP credits**

WCAAP Washington Chapter American Academy of Pediatrics, Incorporated in Washington

Washington State Department of HEALTH

WVA Washington Vaccine Association

Timeline

- **3 month Pilot Project**
- **Beginning January 2026**

If interested, please reach out to vaccinemanagement@wcaap.org by **December 15th**
