WA-CHIP ALUMNI REFRESHER

A refresher for clinics who have already participated

LIGHT TOUCH, HIGH IMPACT

Bring your team back together to **strengthen the work you started in WA-CHIP** and build on your success. This alumni program is a **short, focused refresher—just three meetings over six months** (two cohort calls and a one-on-one session), plus targeted tools and resources to help your clinic sustain improvements and stay current with best practices.

"Learning from other clinics has helped us with morale. When we are down staff, communication across the team helps us keep our focus on immunizations."

Valley View Health Center

WCAAP Washington Chapter American Academy of Pediatrics, Incorporated in Washington

wachip Washington Child Health Improvement Partnership

WHY JOIN THE ALUMNI COLLABORATIVE?

Refresher on proven strategies to reduce missed opportunities for childhood and adolescent vaccines.

Reinforce staff skills in workflows, communication, and standardized vaccination practices.

Update your tools with new resources, reminders, and best practices since your last participation.

Reconnect with peers across Washington who share your commitment to improving child health.

BENEFITS TO YOUR CLINIC

Quality Improvement Support
Continued quality improvement support without the full commitment.

Refresh Skills
Opportunity for team leads and staff to refresh skills and sustain improvements.

Data-driven Insights
Receive individualized data for your practice.

Leader Recognition
Recognition as a leader in advancing immunization practices statewide.
