2026 Opioid Response Network (ORN)

Practical Guidance from Pediatricians: Treating Opioid Use Disorders in Adolescents

MARCH
20
11:30 AM CT

Medications for Opioid Use Disorder (MOUD) in Pediatric Care: A National Office Hour

This session will highlight how individuals with lived experience can support treatment adherence, care coordination, and recovery planning for adolescents with opioid use disorder. The session will also introduce office hours designed to help pediatric providers troubleshoot clinical challenges, discuss cases, and strengthen their skills in pediatric medications to treat opioid use disorder (MOUD).
Speakers: Multidisciplinary Panel of Experts

APRIL
17
11:30 AM CT

Understanding and Treating Opioid Use Disorders in Adolescents: A Pediatric and Interdisciplinary Perspective

This session will promote understanding of substance use disorders, including opioid use disorder as a chronic health condition, explore approaches to reducing stigma, and provide evidence-based strategies for treatment in pediatric settings. Experts will provide a brief overview of clinical approaches, MOUD, and interdisciplinary care models to support adolescents and young adults.
Speakers: Camille Broussard, MD, FAAP, Maria Rahmandar, MD

MAY
15
11AM CT

Advancing Treatment: Integrating Medications for Opioid Use Disorder (MOUD) into Pediatric Care

This session will focus on strategies to increase the number of pediatricians using medications (Buprenorphine and other MOUD) to treat adolescents, young adults, and their families in managing opioid use disorders. Participants will learn about the importance of this treatment and how to implement it effectively.
Speakers: Sarah Bagley, MD, Chris Buresh, MD

JUNE
26
11:30 AM CT

Coordinating Care for Adolescents: Integrating MOUD and Mental Health Treatment in Pediatric Practice

This session will focus on practical strategies for integrating medications for opioid use disorder (MOUD) treatment and mental health care for adolescents within pediatric settings. Experts will share evidence-based approaches for building interprofessional teams, improving care coordination, and enhancing treatment adherence and outcomes.
Speakers: Maria Rahmandar, MD, Camille Broussard, MD, FAAP
