WA-CHIP IMMUNIZATION LEARNING COLLABORATIVE

Cohort 8 Launching March 2026

THE DETAILS

WHO: Pediatric or Family Medicine Clinics in WA.
2 clinic leads participate (1 Physician lead, 1 Staff lead)

WHAT: Between 3-5 hours/month (1-2 hrs for meetings, 2-3 hrs for chart reviews) for 8 months.

WHY: Improve immunization rates at your clinic through proven strategies and individualized support.

"Learning from other clinics has helped us with morale. When we are down staff, communication across the team helps us keep our focus on immunizations."

Valley View Health Center

WHY JOIN THE WA-CHIP LEARNING COLLABORATIVE?

Increase childhood and adolescent vaccinations through:

- Evidence-based improvements, QI coaching, and resources.
- Community of clinics working toward the same goals.
- Equity focus and individualized data to help identify gaps.

BENEFITS TO YOUR CLINIC

MOC and CME credit available

MOC available!

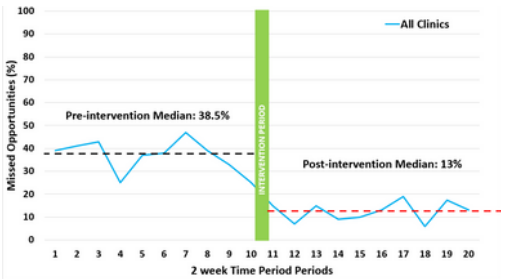

Maintenance of Certification (MOC part 4) and CME credits available for participants completing the program.

Leader Recognition

Recognition as a leader in advancing immunization practices statewide.

Data-driven Insights

Receive individualized data for your practice.

Since 2019, the WA-CHIP Immunization Learning Collaborative has served 66 clinics in 16 counties across WA. In cohort 4 (2022) there was a median reduction of **25.5%** in missed opportunities for children and adolescents.
