

# HORMONES AUTISM &

# WOMEN'S HEALTH

## EVENT DETAILS

**APR 22, 2026**

STARTS AT 11:00 AM

**MHC ATRIUM**

## WHAT YOU'LL LEARN

---

- How hormones impact mental and physical health
- Health disparities affecting girls and women with autism
- Practical first steps for individuals, caregivers, and professionals
- Recommendations for systemic-level change

Join us for an informative presentation exploring the role hormones play in the mental and physical health of girls and women with autism, and how increased awareness can help address important health disparities.
