Monitoring Progress - Data to Consider

To start the 2021-22 school year (n=215):

50% of courses are using a 70/30 split

34% of courses are using an 80/20 split

6% of courses are using a 90/10 split

7% of courses are using a 100/0 split

- This accounts for 17 total classes - all but 4 of the 17 have a reassessment practice, and the remaining four have included several assessment types into the summative category (e.g. Quizzes, Labs, Unit Tests)

48% of all courses have **no change** from the previous year in the way that grade categories are weighted.

The most significant shift in grading is from Total Points to Weighted Categories (21% of courses made this shift)
