Terms we should all know….

- **Diagnostic and Screening Testing: PCR and Rapid Antigen testing tests**
  - Used to identify infected individuals who are symptomatic or asymptomatic
  - Mitigation strategy to prevent widespread outbreaks and/or community spread
  - Offer to unvaccinated students/staff when in moderate, substantial, or high transmission levels
  - Frequency based on level of community transmission (minimum weekly)
  - *Districts continue to wait for updated Exclusion Decision Tree from IDPH as the CDC updated guidance for vaccinated individuals on 8/2/2021
