

The Prairie State Energy Campus is a technologically advanced electric generation facility owned by Midwestern public power entities. The campus includes a 1600-megawatt supercritical power plant and adjacent coal mine. Prairie State's owners invested \$1 billion in the Best Available Control Technology (BACT) to create the cleanest coal-fueled power plant in Illinois and one of the cleanest in the world.

Itinerary

Group A		Group B	
9:00 AM	Arrival at Prairie State Power Plant Assembly Hall 1739 New Marigold Road Marissa, IL 62257	9:00 AM	Arrival at Prairie State Power Plant Assembly Hall 1739 New Marigold Road Marissa, IL 62257

1:15 PM	Plant 101 and Power Plant Tour	1:15 PM	Underground Tour
3:30 PM	Departure	3:30 PM	Departure

Safety and Tour Attire

As you know, Prairie State Energy Campus is a coal mine and a power plant on the same site, falling within the strict safety regulations from the Occupational Safety and Health Administration (OSHA) and the Mine Safety and Health Administration (MSHA) as well as other federal and state agencies. Because of these rules and regulations, we ask that all visitors touring the site wear the following:

- Long pants - jeans suggested
- Full cover shoes with substantial rubber soles - preferably leather
- Short or long-sleeved shirt - no tanks

Prairie State will provide visitors with all necessary personal protective equipment.

If you have any questions, please feel free to contact Alyssa Lohmann, Sr. Public Relations Coordinator, at 618-381-4069 or alohmann@psgc-llc.com.

We look forward to welcoming you to our campus
