CLTD CERTIFIED IN LOGISTICS, TRANSPORTATION AND DISTRIBUTION

Optimize flow and maximize profit with the APICS CLTD

Earning your CLTD certification shows employers that you know how to effectively manage logistics and transportation to align with operational strategy.

This credential empowers professionals with a comprehensive understanding of global logistics, sustainability, and integrated logistics systems, enabling them to optimize trade-offs, align logistics strategy with organizational goals, and identify the most profitable service mix while considering costs. CLTD-certified individuals have the strategic and tactical expertise essential for supply chain excellence and add value across the entire supply chain.

What's covered in the CLTD program?

The CLTD content covers the following key topics:

- Logistics fundamentals and strategy
- Demand management and supply capacity management
- Customer and order management
- Warehouse distribution and fulfillment center management
- Inventory management
- Transportation management
- Global logistics sustainability, reverse logistics and risk management
- Logistics framework, metrics, network design, transformation and improvement

CLTD

CERTIFIED IN LOGISTICS, TRANSPORTATION AND DISTRIBUTION

INSTRUCTOR-LED COURSES

Prepare for the APICS CLTD exam with expert guidance

The APICS Certified in Logistics, Transportation and Distribution (CLTD) provides a comprehensive body of knowledge, best practices and standards for those in logistics, transportation and distribution industries.

Earning the APICS CLTD demonstrates expertise in streamlining and optimizing logistics, transportation and distribution including order management, distribution inventory management and warehouse management.

After earning your CLTD you will be able to:

- Improve distribution inventory management
- Develop and monitor warehouse performance metrics
- Identity and mitigate risk in logistics and transportation
- Manage and execute orders with an emphasis on logistics
- Identity and maintain optimal inventory levels including costs, controls and policy

Expert Instructor-led Classes

Join a course with an experienced instructor

Our certification preparation courses utilize the APICS CLTD Learning System, giving you access to the most comprehensive, effective, and up-to-date exam preparation tools available.

Benefits of an instructor-led course

- Learn from an experienced instructor who provides expertise, insights, and one-on-one guidance
- Network, share experiences, and discuss topics with a diverse group of professionals
- Stay on track to earn your certification with a structured learning experience

In addition to the guidance you'll receive in the classroom, you will also receive the APICS CLTD Learning System. The Learning System provides access to both printed and digital materials. The online platform also includes learning activities, a personalized study experience, microlearning, and convenient access to reading materials.

Enroll Today!

Who should earn the APICS CLTD?

Ideal for supply chain professionals seeking to advance their careers.
Or, if you have any of these roles and responsibilities:
