

- Tuition by experienced, honest, biological farmer. Bee Winfield just wants farmers to know the amazing truth about independent soil science!
- The smallest things on Earth may just be the most powerful! Find out how SOIL MICROBES underpin profitability, a safe climate, plant health and human health !
- It's vital now that Humans understand HUMUS creation and nurture the microbes involved.
- 2 big days practical soil building activities such as composting, worm farming and creating quality compost tea for broadacre. View tea under the microscope. See successful Permaculture strategies live.
- Guest speaker Brent Burns, **Landsave Organics**
- Nutrient dense Lunches & teas
- Bee's 78 page growers manual
- **"Nourishing Soil"** is yours on sign up!
- \$ 385 plus GST & Eventbrite booking fee .

# "Symphony of the Soil"

## Farmer's Seminar & Retreat

February 9<sup>th</sup> and 10<sup>th</sup> at the Farmacy's humus building demonstration site, Nannup. Share the secrets taught to us by U.S. soil scientist Dr Elaine Ingham
