

## **Attention - Our beloved trans community needs your support!**

Three bills pertinent to last year's NHCUCC Resolution affirming the dignity and worth of transgender people in the church and society are up for debate this Tuesday, March 7. Your input is needed!

General information on bills:

**Senate Bill 272**, which would require school officials to forcibly out transgender, gender non-conforming, or questioning students with non-affirming parents. At 9 AM in Senate Education Committee, Room 101, Legislative office building.

**House Bill 10**, which is a less-strongly worded, but still overreaching, version of SB 272. Both bills also allow parents to object to a wide range of "objectionable" or "sexual" (read: LGBTQ+) materials in schools. At 1:15 PM in House Children and Family Law, Room 206-208, Legislative office building.

**House Bill 417**, which would define gender affirming care for minors as "child abuse." At 10:45 AM in House Children and Family Law, Room 206-208, Legislative office building.

**House Bill 619**, being called the "trifecta of anti-transness," which would ban gender affirming care for minors, end LGBTQ+ affirmation and education in public schools, and re-legalize conversion therapy. At 10 AM in House Health and Human Services, in Representatives Hall, State House.

**House Bill 368**, which would allow out-of-state trans healthcare seekers who come to New Hampshire to be protected from prosecution when they return to their home states. At 1 PM in House Health and Human Services, in Representatives Hall, State House.
