Jump~Start Your Health!

**Multiple symptoms?
Not sure where to start?**

**Three Keys
to Wellness!**

Clear the path for the body to balance naturally. As a world leader in clinical homeopathy, NEWTON realizes that addressing multiple symptoms with single remedies can be challenging. **Jump-Start Your Health!**, this unique trio of combination remedies formulated for balance and wellness, may help simplify the process.

Detoxifier is NEWTON's premier product and central to the clinical homeopathy approach. This combination of single remedies focuses on the body's ability to eliminate toxins. Our founder, Dr. Luc Chaltin, developed the technique of "clearing the terrain" to help people who exhibit multiple symptoms that are vague, complicated and difficult to diagnose. As the terrain is cleared through proper elimination, digestive balance and joint health, underlying causes that have been masked by symptoms may become easier to identify.

Bowel~Digestive Care ~ Taking into consideration the shortage of clean, fresh, and live foods in our diet, it is essential that we take control of our digestive health.

Rheumatic~Joint Care ~ Proper assimilation (transformation of food into tissue) and efficient processing of metabolic toxins (uric acid and other free radicals) are dependent upon a well-balanced body. An out-of-balance body, coupled with a diet that may be excessive, too rich or lacking essential nutrients, can cause a build-up of toxins resulting in joint pain, inflammation and discomfort.

NEWTON offers over 100 OTC combination remedies for your entire family and pets, for self-limiting conditions not requiring the guidance of a health professional. For a complete listing, go to newtonlabs.net or visit your local health food store.

For more information visit newtonlabs.net

NEWTON product uses are based on traditional homeopathic practice.
The products have not been evaluated by the FDA and have not been evaluated for medical evidence.
Information, statements and reviews regarding products have not been reviewed or evaluated by the FDA.

Our Founder ~ Dr. Luc Chaltin (1923 - 2008)

In 1965, Belgian-born Luc Chaltin was gravely ill with tuberculosis. He could not tolerate the traditional medical treatment and classical homeopathy could not help him. This life-threatening experience led him on his journey.

As fate would have it, his search led him to a book that explained the importance of liver drainage (detoxification). Consequently, Dr. Luc began using homeopathic remedies known to cleanse or “drain” the liver of toxins and combined these “drainers” with other homeopathic remedies known to support excretory function. He soon developed a combination formula and labeled it “*Drainer*.” His condition quickly improved. Within six months, there was no evidence of tuberculosis.

Determined to continue his research and share his discovery with others, Dr. Luc sought additional learning opportunities. He studied pre-med at the Rijksuniversiteits Antwerpen Medical College in Antwerp, Belgium. In addition, he earned a homeopathic diploma from the British Institute of Homeopathy and a degree in Naturopathy. He began to teach homeopathy, lecture, write books and publish articles for scientific journals. During his career, Dr. Luc assisted in the healing of thousands of people throughout the United States, Europe, and the Caribbean.

In 1987, Dr. Luc founded Newton Laboratories, Inc. He began to manufacture and market “*Drainer*,” along with other unique formulations he had developed while still living in Belgium. His formulations focus on detoxification while addressing symptoms of acute and chronic illness. All NEWTON complexes continue to be developed using his unique methods.

At Amsterdam’s 1992 International Conference on AIDS, one of Dr. Luc’s papers on autoimmune diseases was presented by noted scientific author, Christopher Bird. In 1993, Dr. Luc served on a special committee established to review grant applications for the Office of Alternative Medicine at the National Institutes of Health (NIH).

To aid in the promotion of homeopathy and the education of others, Dr. Luc established the American Academy of Clinical Homeopathy (AACH). Hundreds of formal and informal students have taken advantage of AACH trainings. Many have completed its *Clinical Homeopathy Correspondence Course* and have gone on to promote healing through clinical homeopathic methods. Today, the AACH has a staff of educators, support personnel and graduates who are embracing and continuing Dr. Luc’s vision for educating the masses in this valuable method of healing.

In 2017, the AACH published a book entitled *Healing with Clinical Homeopathy, the Life, Vision, Genius and Legacy of Dr. Luc Chaltin*. It is not only a fascinating biography of Dr. Luc’s life, but also examines the development of his clinical philosophy and methods. Learn how you too can address acute and chronic conditions utilizing his methods.

Our President/CEO ~ Marjorie (Marge) Roberts

Marge received her BS in Nursing from the University of Wisconsin and her MS in Health Professions from Southwest Texas State University. In 1994-95, she studied homeopathy and acupuncture in the United States and Sri Lanka. From 1996-2011, she was the co-founder and president of the Complementary/Alternative Medical Association, and spent many years advocating at the Georgia State Capitol on behalf of natural medicine. She began studying clinical homeopathy with Dr. Chaltin in 1996 and subsequently received a DAHom from the American Academy of Clinical Homeopathy. In 2004, she wrote and published *My Body, My Health, My Choice*, a book about the health freedom movement. She is a member of the Homeopathic Nurses Association and retired after 30 years of nursing to serve as President/CEO of Newton Laboratories, Inc.

In 2004, Dr. Luc entrusted the daily operations of NEWTON/AACH to Marge and a well-trained team of experts. She currently lectures at community gatherings, universities, and national health-related events. In addition, she serves as an adjunct professor at Life University, teaching an undergraduate course on homeopathy. She has appeared on numerous television and radio shows discussing complementary/alternative medicine, homeopathy and issues of health care freedom. Marge and the NEWTON team are committed to continuing the legacy of natural healing and education that Dr. Luc began.

Marge Roberts tells the story of Dr. Luc Chaltin, founder of NEWTON and a leader in clinical homeopathy.

Dr. Luc was an amazing man with an amazing story. Not only did he survive the war by hiding from the Germans and heal himself of tuberculosis using homeopathy, he developed a homeopathic approach for tackling chronic diseases. In this book, Marge will enlighten you about the philosophy, theory and approach to homeopathy as taught by Dr. Luc. The clinical homeopathy approach is a practical method for addressing the chronic conditions that are so prevalent today.

Find it on Amazon, at your favorite health food store, or order online at newtonlabs.net. Ebook and interactive versions are also available. The interactive version contains a video of Luc lecturing, audios featuring family, and admirers along with many historical pictures not contained in the printed version.

Watch the videos in the Education section of newtonlabs.net to learn more about homeopathy and this amazing healer.

Welcome to Homeopathy

Homeopathy, a complete system of healing with its own method of diagnosing and its own special remedies, was developed by Dr. Samuel Hahnemann over 200 years ago. Homeopathics have no known side effects, may be used by everyone, including kids and pets, and can be administered for both acute and chronic conditions.

Homeopathics are made from small amounts of plant, animal and mineral substances prepared by a process whereby a minute amount of substance is highly diluted and succussed (vigorously shaken). Scientists have theorized that homeopathy may function similar to the way enzymes or hormones function in the body. Although they are found in similar miniscule amounts, they are believed to have very powerful effects.

People are returning to homeopathy because they understand that in order to achieve health, one must discover the root cause of disease and not just treat the symptoms. Many understand that pharmaceutical drugs often interfere with the body's natural ability to heal itself. Suppressing, or merely removing symptoms, is a temporary solution. Addressing the whole person, naturally, is the long-term solution to modern states of disease.

NEWTON complexes are the result of advanced evolution in the use of homeopathic remedies in Europe, especially in Belgium, France, and Germany. Starting in the mid-1800s, through the beginning of the 20th century, the French homeopaths developed the technique of draining toxins from the body. Dr. Luc took this idea and combined it with the concept of complex remedies. The use of such a complex saved his life and led to the development of the wide range of NEWTON complexes.

Helpful Hints & Tips

Detox daily!

A daily dose of NEWTON's **Detoxifier** for symptoms of toxicity may maximize the effectiveness of other remedies, supplements and vitamins.

Wait for it!

Wait 15 minutes between taking homeopathy and eating, drinking, taking drugs, supplements or other remedies. This keeps anything from interfering with the homeopathics.

Drop it in!

Liquid remedies should be placed directly in the mouth or dropped into a small amount of water. As the remedy contacts the mucous membranes of the mouth, it is absorbed into the body.

Cross it over!

Although NEWTON manufactures complexes specifically for kids and pets, a condition may arise of which there is no kids/pets complex. Be assured that all OTC (adult, kids and pets) complexes are manufactured using the same high quality raw materials and stringent manufacturing controls.

Mix it up!

If an alcohol-free remedy is preferred, place the drops of homeopathy in a small amount of warm water and let stand for 10 minutes to allow the alcohol to evaporate prior to dosing. The FDA mandates that liquid homeopathics contain a preservative. NEWTON's choice of preservative is USP certified gluten-free, non-GMO, organic cane alcohol. NEWTON's certified gluten-free, non-GMO, organic beet-derived sucrose (lactose-free) pellets are another alcohol-free alternative.

Don't touch!

Pellet remedies should be taken without being touched. The outermost layer of the pellet contains the active ingredients. Warmth from the human hand and oils from the skin may remove some of the remedy on contact. Dispense into the bottle cap or a spoon and then pour into the mouth.

Keep it protected!

Amber glass containers protect the homeopathics from light exposure. Keep out of direct sunlight and away from extreme heat and/or electronics.

Choose NEWTON ~ Choose Quality

Expertise & Experience

The not-so-secret ingredient that places NEWTON above all others lies in the history and formulation of its complexes by world-renowned authority, Dr. Luc Chaltin. His nearly 50 years of clinical experience and research made him unparalleled in his ability to develop complex remedies.

Quality Assurance

NEWTON is an FDA-registered homeopathic manufacturer and prepares its remedies according to the Homeopathic Pharmacopoeia of the United States (HPUS). Dr. Luc structured NEWTON around the philosophy of quality. All raw materials and finished products are tested by an FDA-registered independent laboratory.

Historically, liquid homeopathics have been made, preserved and packaged with a small amount of alcohol. The Homeopathic Pharmacopoeia mandates that a preservative be used. NEWTON uses USP certified gluten-free, non-GMO, organic cane alcohol as a preservative. The pellet version uses certified gluten-free, non-GMO, organic beet-derived sucrose (lactose-free) pellets. Because glass is inert, NEWTON packages only in amber glass that does not interact with and protects the homeopathics from light.

Environmental Awareness

Dr. Luc was an environmental advocate before NEWTON was established. In 1972, he hosted a Belgian radio show and wrote the first book, in Dutch, on organic gardening. NEWTON decreases its impact on the environment through minimal retail packaging and using only biodegradable, recycled, or recyclable materials.

Variety & Selection

NEWTON manufactures over 100 over-the-counter (OTC) complexes for adults, kids, and pets and over 80 health professionals-only (PRO) single remedies and complexes.

Economical & Easy to Use

Homeopathy is much less expensive than other therapies and pharmaceutical drugs. Liquid homeopathics preserved in alcohol are exempt from carrying an expiration date, eliminating the need to frequently buy new product. Compare labels carefully. NEWTON's standard 3 to 6 drop dosage is lower than many other brands, making it more economical. When you consider all the single remedies available, NEWTON simplifies the process by combining the most appropriate remedies for you as complexes that are named so that choosing the correct one is easy. We believe complexes are the quickest, most efficient way to use homeopathics. NEWTON liquid complexes come with a Euro-style dropper for ease of use. Sprayer tops and plastic droppers are also available.

Manufactured in America~Woman/Veteran-Owned

NEWTON has been based in Georgia since its inception. Belgian-born founder, Luc Chaltin, epitomized a hands-on business approach during his lifetime. That philosophy continues as NEWTON remains family-owned with hands-on participation by its principals. Marge Roberts, a Registered Nurse for 30 years and Ron Parker, a former chemical formulator and lobbyist, are the current owners and principals of NEWTON. Although homeopathy is recognized and accepted in Europe, England and other developed countries, many are unfamiliar with this amazing natural approach to healthcare. Dr. Luc introduced his clinical homeopathy approach to America. Both Marge (Army) and Ron (Air Force) are veterans and are committed to sharing this approach.

Customer Support

Although NEWTON is unable to serve as your health practice consultant or give medical advice, NEWTON's support personnel are available to assist with any questions pertaining to NEWTON's products.

Single Remedy (SR) Homeopathy

Each homeopathic SR has one active ingredient commonly referred to by its Latin name and sourced from plants, animals or minerals.

Although NEWTON specializes in, and is best known for its extensive selection of complexes, we also manufacture the most popular SRs in a variety of potencies and packaging. SR items carried in inventory may change based on consumer demand. Visit newtonlabs.net for a current list.

For a more comprehensive approach, consider utilizing a complex for your particular healthcare need. Enter a SR name in the search box at newtonlabs.net to find which NEWTON complexes contain a particular SR.

Thank You For Choosing NEWTON Homeopathics

Frequently Asked Questions

Is homeopathy safe?

There are no known side effects or drug or herbal interactions with homeopathy. The active ingredients in homeopathic products occur in such highly-diluted amounts that they are considered to be non-toxic for everyone; i.e. infants, children, teenagers, adults, pregnant women, nursing mothers, seniors and pets. Homeopathic preparations were recognized as drugs by the Food, Drug & Cosmetic Act of 1938, and are regulated by the U.S. Food & Drug Administration (FDA). NEWTON's raw materials and finished products are tested by an FDA-registered independent laboratory according to Homœopathic Pharmacopœia of the United States (HPUS) guidelines.

Can homeopathic remedies be taken along with pharmaceutical medications or other natural supplements?

There are no known drug-to-drug interactions or contraindications with homeopathics, pharmaceuticals and/or supplements. NEWTON suggests a "15-minute" window (free from consumption of any food, drink, medications and/or supplements) before and after administering homeopathics to keep anything from interfering with the homeopathics.

How are homeopathic remedies sold?

Homeopathic remedies are sold in various forms and modes of delivery. A single remedy consists of one homeopathic active ingredient; a complex or combination remedy is a mixture of two or more homeopathic active ingredients. The most common modes of delivery are liquid and pellet. Liquid homeopathics are required to contain a preservative. Pellet homeopathics are small sucrose pellets that are dosed with a liquid homeopathic. NEWTON's liquid homeopathics contain purified water and a preservative of certified, gluten-free, non-GMO, organic cane alcohol. NEWTON's pellets are certified gluten-free, non-GMO, organic beet-derived sucrose (lactose-free). Based on the knowledge that glass is inert and will not interact with homeopathy, NEWTON packages only in amber glass that protects the homeopathics from light exposure.

Can homeopathic remedies be taken for extended periods of time?

Homeopathics are highly-diluted formulations that haven't been known to accumulate or "build-up" in the body. For chronic conditions that require daily administration, the same remedy can be taken for as long as the condition remains. There shouldn't be any need to discontinue a homeopathic regimen, until the condition has resolved, and that regimen is no longer appropriate.

How long does it take for homeopathy to work?

This depends on each individual situation. A person with a simple, yet acute condition such as an itchy bug bite may experience immediate results with the correct homeopathic remedy. However, a person with a long-standing complex condition such as chronic fatigue syndrome may not see complete results for several weeks or even months. Many factors must be taken into consideration including diet, lifestyle and medical history.

FAQs (continued)

Liquid or pellets? What is the difference?

This is a matter of personal preference. The difference is the mode of delivery. Some prefer pellets because of the sugary taste or because they prefer an alcohol-free remedy. Others prefer liquid due to its ease of use. Pellets should not be touched with fingers or hands. The warmth and moisture of the skin may remove active ingredients from the pellets. Pour pellets into the bottle cap and then pour directly into the mouth.

Can homeopathy be taken with food, drink, peppermint, etc.?

Historically, it has been recommended that one should refrain from consuming foods that contain strong aromatics or stimulants such as coffee and peppermint. NEWTON has found the “15-Minute Rule” to be sufficient when administering homeopathy and consuming food or drink. Simply wait 15 minutes before and after administering homeopathics before eating, drinking or brushing your teeth. Homeopathy may also be mixed with a small amount of clean water.

Is homeopathy affected by extreme temperatures?

According to the Homeopathic Pharmacopœia of the United States (HPUS), due to documented heat sensitivity of homeopathic preparations, remedies should not be exposed to temperatures greater than 121°C (249.8°F). Refrigerating or freezing homeopathic remedies is not recommended. The best method for storage is to keep containers tightly sealed, out of direct sunlight and away from extreme heat and/or electronics.

Why are homeopathic ingredients listed in Latin?

Homeopathic active ingredients are listed in Latin because homeopaths require precision and accuracy in identifying and describing the source of the plant, mineral or animal species of a particular remedy. Often there is more than one common name associated with a substance so the Latin name is used to assure correct identification.

Are NEWTON remedies gluten-free and safe for individuals with sensitivities?

NEWTON liquid remedies contain certified gluten-free, non-GMO, organic cane alcohol. NEWTON pellets are certified gluten-free, non-GMO, organic beet-derived sucrose (lactose-free). NEWTON remedies are made from high-quality organic or wild-grown herbs and medicinal substances.

Do larger individuals need to take more than the standard NEWTON adult dose of 6 drops?

Homeopathy is not dispensed according to weight or size in humans. A NEWTON standard adult dose is 6 drops or pellets. A standard child’s dose is 3 drops or pellets. Other manufacturers’ standard dosages are often more than double the NEWTON dosage. Animal dosage is based on weight due to the fact that there is so much variance in size between breeds and species. For instance, a small bird may weigh mere ounces, while a large horse may exceed a ton.

FAQs (continued)

Is the alcohol in the liquid remedies safe for kids and pets?

NEWTON follows the guidelines set by the Homœopathic Pharmacopœia of the United States (HPUS) for preserving homeopathic preparations. For those concerned with the alcohol content, a child or small pet dose of 3 drops once a day delivers 0.001 ounces of alcohol. One six-ounce glass of wine delivers 660 times the amount of alcohol as a 3-drop dose of NEWTON complex. If there are still concerns, the dose may be placed in a small amount (approx. 1 tbsp.) of warm water, and most of the alcohol will evaporate within 10 minutes. NEWTON pellets do not contain alcohol and are offered as an alcohol-free alternative. Although pellets are not available in the Pets line and some PRO complexes, related complexes in the Adult and Kids line may be used.

Can homeopathy be taken to prevent illness, such as flu or measles?

According to an excerpt from an article posted on the National Center for Homeopathy's website (homeopathycenter.org) entitled "*Homeopathic Prophylaxis? Tantalizing question, surprising answer*":

"Samuel Hahnemann, homeopathy's founder, initiated the use of homeopathic remedies to protect people from epidemic diseases. He recorded dealing with epidemics of scarlet fever and then Asian cholera. In both instances, once he had determined the remedy that best matched the symptoms of the epidemic, he gave a dose of it to the patients' families. In this way, he effectively prevented the manifestation of those diseases in others at high risk. For scarlet fever, the remedy was Belladonna, and for Asian cholera it was Cuprum metallicum. We note two important concepts in Hahnemann's prophylactic use of homeopathic remedies:

- a) the remedies were the epidemic simillimum (the curative remedy for the epidemic, often referred to as the "genus epidemicus"), not nosodes (remedies made from diseased matter); nosodes had not yet been developed.
- b) Hahnemann was not "vaccinating" the general population, but treating people who had already been exposed.

Referring to the cholera epidemic, Hahnemann specifically states (Lesser Writings, "Cure and Prevention of Asian Cholera," p. 755): The above preparation of copper, together with good and moderate diet and proper attention to cleanliness, is the most certain preventive and productive remedy; those in health should take, once a week, a small globule of it (Cupr 30c) in the morning fasting, and not drink anything immediately afterward, but this should not be done until the cholera is in the locality itself, or in the neighborhood. Hahnemann taught and demonstrated that homeopathic remedies treat existing disease states in individuals; he was not attempting to prevent states that might possibly happen sometime in the future."

THINKIFIC

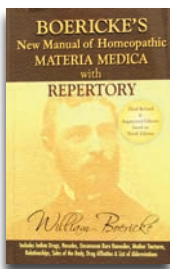

aach.thinkific.com

Many educational avenues exist for the practice of classical homeopathy. The AACH provides articles, case studies, lecture offerings and other information related to the unique practice of clinical homeopathy. The AACH also offers an in-depth program in clinical homeopathy consisting of five courses and a case study. A diploma is awarded upon the successful completion of all lessons and the case study.

The AACH has registered with Thinkific to bring its students a dynamic online learning experience unlike any other. Thinkific is interactive, easy to use, and allows the student to work at his/her own pace to complete course studies. Students can communicate with course creators through the Thinkific platform.

Ultimate Guide

Anyone interested in learning more about homeopathy should own a *Homeopathic Materia Medica*. NEWTON has the *Boericke Materia Medica with Repertory* in stock and ready to ship. *Materia Medica* is a Latin term for a book of collected knowledge about the therapeutic properties of any substance used for healing. A *Homeopathic Materia Medica* lists the most common homeopathic single remedies and the symptoms for which they are useful, as well as a list of their common names. Most *Homeopathic Materia Medica* publications also include a repertory. The *Homeopathic Repertory* is designed to be an easy-to-use reference guide for matching clinical ailments or diseases to the appropriate single remedy.

For more information about any of these opportunities, visit us on the web or email us at info@newtonlabs.net

Dosage & Directions

Homeopathy is natural and easy to use, requiring no strict dosing schedules. Specific dosage and directions for use are on each NEWTON product label. When taking complexes, consider the condition: is it acute or chronic? In acute situations, dose every 10-15 minutes or as needed until you experience results and maybe a few doses afterwards. If symptoms are chronic or ongoing, dose 1 to 4 times per day as part of an ongoing regimen until you experience results and continue for short period of time afterwards. All complexes may be dosed as directed by a health professional.

Standard Dosage

Adults/Kids: Ages 12 and up, take 6 drops/pellets by mouth (ages 0 to 11, give 3 drops/pellets). Under age 2, crush/dissolve pellets in purified water and then administer the water. Sensitive persons begin with 1 drop/pellet and gradually increase to full dose.

Pets: Under 50 lbs., give 3 drops by mouth (50 to 500 lbs. - give 6 drops, over 500 lbs. - give 1/2 teaspoon).

NEWTON's liquid complexes contain purified water and a preservative of certified, gluten-free, non-GMO, organic cane alcohol. Since dosing animals can be challenging, the appropriate dosage amount of homeopathics can be added to their drinking water. For rabbits and some bird species that are sensitive to alcohol and for animals that exhibit a sensitivity to the smell of alcohol, add the appropriate dosage amount of homeopathics to a small amount of warm water, wait a few minutes to allow the alcohol to evaporate, then either administer the warm water or add it to their drinking water. Metal bowls or spoons may interfere with the effectiveness of the homeopathic.

General Warnings

Consult a licensed health professional if symptoms become severe or last more than 48 hours, especially regarding fever, injury, bites, infection, parasitic infestations, or suicidal thoughts. Due to the alcohol content in liquid products, do not place drops in eyes, ears, on open wounds or other sensitive areas.

Keep out of reach of children. Do not use if tamper-evident seal is broken or missing. If symptoms worsen or persist for more than a few days, consult a licensed health professional. If pregnant or breast-feeding, ask a licensed health professional before use.

NEWTON homeopathics®

Nurturing Naturally Since 1987™

COMPLEXES

Accident~Injury Rescue (N034)

Formulated for symptoms associated with trauma or medical procedures such as pain, emotional upset, bruising and inflammation.

Aches~Pains (N019)

Formulated for symptoms associated with bruises, strains and overexertion such as pain, stiffness and inflammation.

Acne (N015)

Formulated for symptoms associated with acne and other skin conditions such as boils, pimples, pustules and sebaceous cysts.

Appetite~Craving Control (N027)

Formulated for symptoms such as overeating, cravings, fatigue, diminished appetite and emotional discomfort.

Bladder~Kidney (N010)

Formulated for associated symptoms such as frequent or difficult urination, burning, pain, urgency and the sensation of a full bladder.

Blues~Mood~Emotions (N035)

Formulated for associated symptoms such as grief, despondency, difficult concentration, irritability, oversensitivity and prolonged sadness.

Bowel~Digestive Care (N029)

Formulated for associated symptoms such as vomiting, burning, bloating, gas, nausea, cramping and pressure.

Breast Care (N064)

Formulated for associated symptoms such as breast tenderness, nursing discomfort and pre-menstrual swelling.

Bug Bites~Itch Stopper (N038)

Formulated for symptoms associated with bites and stings such as pain, burning, itching and swelling.

Candid~Y (N016)

Formulated for associated symptoms such as gas, bloating, fatigue, mental fogginess, itching and discharge.

Cell Salts (N083)

A formulation of the 12 tissue salts.

Cold Hands~Feet (N052)

Formulated for associated symptoms such as dizziness, fatigue, weakness, tingling and numb or cold extremities.

Cold~Sinus (N003)

Formulated for associated symptoms such as runny nose, watery eyes, congestion, pain, sinus pressure, post-nasal drip, cough and inflammation.

Cold Sores (N039)

Formulated for symptoms associated with eruptions and sores of the lips and mouth such as itching, crusting, redness and pain.

Constipation (N008)

Formulated for associated symptoms such as difficult elimination, hard stools, pain, cramping, itching and bloating.

Cough~Airway (N002)

Formulated for symptoms such as wheezing, shortness of breath, congestion, coughing, dryness and painful breathing.

Dairy~Grain~Nightshades (N057)

Formulated for symptoms associated with sensitivity and intolerance to dairy, grain and nightshade foods.

Detoxifier (N001)

Formulated for symptoms associated with toxicity such as fatigue, headaches and sluggish elimination.

Diarrhea (N031)

Formulated for associated symptoms such as loose or liquid stools, intestinal cramping, nausea, flatulence and fatigue.

Dust~Mold~Dander (N056)

Formulated for associated symptoms such as labored breathing, congestion, sneezing, runny nose, watery eyes and skin irritations.

Ear Care (N006)

Formulated for associated symptoms such as pain, fever, inflammation, redness, congestion, itching and pressure.

Ear Ringing (N077)

Formulated for associated symptoms such as ringing, buzzing, echoing, pressure, pain, throbbing and sensitivity to noise.

Ear Wax Build-Up (N072)

Formulated for associated symptoms such as dryness, itching, hearing difficulties and excess wax accumulation.

Eczema~Skin Care (N017)

Formulated for symptoms associated with eczema, psoriasis, sunburn, rashes and other skin conditions such as itching, pain, sensitivity and inflammation.

Edema~Fluid Retention (N065)

Formulated for associated symptoms such as skin discoloration, discomfort and swelling.

Eye Care (N041)

Formulated for associated symptoms such as cramping, dry skin, fatigue, muscle soreness and for the exposure to pool chemicals.

Teeth~Gums (N042)

Formulated for associated symptoms such as mouth sores, bad breath, toothache, inflammation and gum sensitivity.

Throat Care (N025)

Formulated for associated symptoms such as dryness, irritation, inflammation, pain and hoarseness.

Thyroid~Adrenal (N074)

Formulated for associated symptoms such as rapid or sluggish metabolism, weight fluctuation, fatigue and hair loss.

Tobacco Withdrawal (N030)

Formulated for associated symptoms such as anxiety, cravings, irritability, labored breathing, cough, headaches and stress.

Varicose Veins (N021)

Formulated for associated symptoms such as enlarged veins, swelling, discoloration, pain, stinging and heaviness in the extremities.

Vitality (N085)

Formulated for symptoms associated with low energy, mild stress and weakness.

Vitiligo (N081)

Formulated for associated symptoms such as loss of pigmentation, changes in the skin, inflammation, itching and premature graying.

Warts~Moles~Skin Tags (N036)

Formulated for warts (including genital), moles, keloids, molluscum and skin tags.

Liquid complexes contain USP purified water and USP certified gluten-free, non-GMO, organic cane alcohol. Pellet complexes are certified gluten-free, non-GMO, organic beet-derived sucrose (lactose-free). Some complexes are not available in all sizes and dosage forms. Check our website for current sizes and forms available. Complexes for PETS are available in liquid only.

Prefer a spray delivery? Spray tops are available for a minimal charge and fit both one- and 1.7-ounce sizes. Plastic droppers are also available.

NEWTON homeopathics® Kids

Encouraging Health & Promoting Balance™

I have successfully used the homeopathic complex remedies offered by “NEWTON for Kids” on my own children since the time they were born. I have never used chemically prepared medicines such as acetaminophen and ibuprofen on my kids. Every unexpected bump, earache, teething pain, fever and bout of diarrhea has been met with and eradicated by the homeopathic complexes offered by NEWTON. This makes it possible for me to be empowered with on-hand treatments that I know will work at any odd hour for instant solutions. As a Registered Nurse, I have administered life-saving drugs that hold an important place for diseases. However, for self-limiting ailments, NEWTON is the best answer for me. Try them and see how a few dollars and a few drops can empower you to solve your kid’s discomforts naturally, safely and quickly.

Elizabeth Patterson-Truetwin, R.N.

Airway Ease, Kids (F002)

Formulated for symptoms such as wheezing, shortness of breath, congestion, coughing, inflammation and other related symptoms.

Allergies, Kids (F007)

Formulated for symptoms associated with food and environmental allergens such as congestion, swollen glands, runny nose, cough, rashes and stomach upset.

Bedwetting, Kids (F044)

NEWTON homeopathics® PETS

Since its inception over 200 years ago, the healing system of homeopathy has been used to promote balanced health in people — without any known side effects. More recently, there has been a great deal of interest in using homeopathy for pets, something commonplace in Europe and many parts of the world. Feel free to use any of the applicable NEWTON complexes, as homeopathic remedies are interchangeable between humans and pets.

Today, pets are exposed to thousands of toxins via food, water and air. It is no longer a complete approach to find one indicated remedy for a symptom, apply it and expect to achieve long-term relief. It is now necessary to address “overloaded” digestive and excretory systems (primarily the liver) when using homeopathy or any form of holistic medicine.

Therefore, we believe that the most important remedy for an animal is NEWTON's **Pets Detoxifier** indicated for use on its own or in conjunction with any other specially-formulated pet remedies. For example, if a pet has skin irritations, giving remedies for the skin alone would only address part of the problem. If you have not also addressed a deficient “elimination” system, a flare-up of the original skin condition can occur. It is for this reason that **Pets Detoxifier** was developed. Consider using it in conjunction with **Pets Skin Care**. If intestinal problems are also present, consider using **Pets Bowel~Digestive Care** and if inflammation or arthritis is present, consider adding **Pets Rheumatic~Joint Care**.

Bladder~Kidney, Pets (P010)

Formulated for associated symptoms such as frequent urination, irritation and incontinence.

Bowel~Digestive Care, Pets (P014)

Formulated for associated symptoms such as loose stools, constipation, flatulence, vomiting and poor appetite.

Cough~Airway, Pets (P019)

Formulated for symptoms such as coughing, wheezing, congestion and labored breathing.

Detoxifier, Pets (P025)

Formulated for symptoms associated with toxicity such as fatigue and sluggish elimination.

Diarrhea~Gas, Pets (P021)

Formulated for associated symptoms such as loose stools, nausea, bloating, decreased appetite, fatigue, flatulence and offensive odors.

Doggy Breath, Pets (P023)

Formulated for symptoms associated with bad breath resulting from improper diet, indigestion or poor dental hygiene.

Ear Care, Pets (P022)

Formulated for associated symptoms such as discomfort, itching, irritation, inflammation and swelling.

Energy~Vitality, Pets (P024)

Formulated for symptoms associated with illness, lowered vitality and aging such as fatigue, debility, decreased appetite, enlarged glands and stress.

Eye Care, Pets (P013)

Formulated for associated symptoms such as itching, swelling, redness, discharge and excessive tears.

Fever~Infection, Pets (P004)

Formulated for associated symptoms such as chills, discomfort, fatigue and loss of appetite.

Flea~Bug Bites, Pets (P012)

Formulated for symptoms associated with bites and stings such as inflammation, burning, itching, swelling and discomfort.

Inflammation, Pets (P009)

Formulated for associated symptoms such as swelling, redness, cough, discomfort and increased sensitivity.

Injury~Rescue, Pets (P017)

Formulated for associated symptoms such as swelling, redness, cough, discomfort and increased sensitivity.

Nervousness~Fear, Pets (P016)

Formulated for associated symptoms such as aggression, hypersensitivity, tremors, nervous habits, separation anxiety and loss of appetite.

Parasites, Pets (P007)

Formulated for associated symptoms such as bloating, anal itching, skin eruptions, constipation, diarrhea, vomiting and weight loss.

Rheumatic~Joint Care, Pets (P018)

Formulated for associated symptoms such as discomfort, stiffness and swelling.

Scot Stopper, Pets (P011)

Formulated for associated symptoms such as anal itching, inflammation, scratching, gnawing and scooting.

Skin Care, Pets (P015)

Formulated for associated symptoms such as itching, swelling, eruptions, dry skin, hair loss, hot spots and excessive grooming.
