

# RESIDENCY PLACEMENT

The mission of Kent State University College of Podiatric Medicine is to educate students to be highly competent doctors of podiatric medicine who will excel in residency training.

Upon successful completion of four years of graduate professional education, podiatric medical graduates participate in post-graduate education and training opportunities: PMSR (Podiatric Medicine and Surgery Residency) or PMSR/RRA (Podiatric Medicine and Surgery Residency with the added credential in reconstructive rearfoot/ankle surgery).

Residency programs expose the podiatric medical graduate to structured learning environments and experiences in general medical patient management along with training in the diagnosis and care of podiatric pathology. Similar to other medical specialties, this training process occurs in teaching hospitals or academic health centers throughout the country. Some Doctors of Podiatric Medicine may elect to continue his or her training in a concentrated specialty through a Fellowship.

---

The Council on Podiatric Medical Education (CPME) approves residency programs in Podiatric Medicine and Surgery Residency with or without the added credential in Reconstructive Rearfoot/Ankle Surgery (PMSR and PMSR/RRA).

**Podiatric Medicine and Surgery Residency (PMSR)** – A PMSR resident is trained in the breadth of podiatric healthcare. Completion of the residency leads to the following certification pathways — the American Board Podiatric Medicine (ABPM) and foot surgery of the American Board of Foot and Ankle Surgery (ABFAS). Podiatric Medicine and Surgery Residency with a credential in Reconstructive Rearfoot/Ankle Surgery (PMSR/RRA).

In addition to the standard Podiatric Medicine and Surgery Residency, the added credential in **Reconstructive Rearfoot/Ankle Surgery (PMSR/RRA)** is available with some residencies. These residencies can provide a sufficient volume and diversity in reconstructive rearfoot and ankle procedures and are approved grant an added credential in RRA. Completion of a Podiatric Medicine and Surgery Residency with the added credential leads to the RRA certification pathway of ABFAS.
