A PUBLICATION FOR BAYSTATE HEALTH TEAM MEMBERS

Kevin Conway

Senior Vice President and Chief Information & Digital Officer, Baystate Health

1. Most rewarding aspect of working in healthcare:

In my role, I enjoy partnering with clinical and operational leaders to solve healthcare problems by leveraging technology and solutions. When technology can enable better treatment plans,

data, or information at the right time to the right caregivers, it is extremely rewarding.

2. Share an interesting fact that people may be surprised to know about you:

I lived in England for three years working in healthcare deploying EMR solutions to several NHS hospitals called Trusts. My youngest son did 9th grade in UK, and we were able to visit many European countries during that time. Paris was my favorite!

3. Best advice you have ever received:

“Son, you have two ears and one mouth. You should listen twice as much as you speak.”

Kevin on vacation in Arizona last year.
