

Santa's Helpers at High Street Health Clinic

Santa's helpers delivered gift bags including gift cards and scratch tickets from the pediatric providers to the amazing staff in General Pediatrics at High Street Health Clinic. The staff at HSHC not only cared for pediatric patients and their families during this pandemic, but established a food pantry, staffed the COVID19 testing site at 140 High Street and redesigned their model of care practically overnight to include telemedicine. Thanks for your astounding accomplishments this year!
