

To our local employers and community partners (on behalf of Fairfield Medical Center):

As COVID-19 continues to impact our community, keeping our local businesses healthy remains at the forefront of our minds. In addition to implementing proactive safety measures in the workplace – including temperature screenings, social distancing, face coverings, good hand hygiene and the frequent cleaning of high-touch surfaces – it's critical that employees self-isolate or stay home when sick. If employers require COVID-19 testing before a staff member's return to work, please note the following:

- FMC's drive-thru testing site is located near Fairfield Diagnostic Imaging (FDI) and First Medical Urgent Care at 1241 River Valley Blvd., Lancaster.
- FMC's testing site hours of operation:
 - Monday-Friday from 9 a.m.-6 p.m.
 - Saturdays from 9 a.m.-4 p.m.
 - Closed on Sundays and holidays
- **A physician's order is required for COVID-19 testing at FMC's drive-thru location. Individuals that arrive at FMC's testing site without a physician's order will not be tested.**
- Patients with an appropriate physician's order do not need to schedule an appointment for drive-thru testing. You may arrive at your convenience during the testing site's established hours of operation.
- Similar to other diagnostic services, insurance will be billed for the cost of the COVID-19 test. Charges to patients may vary based on coverage.
- If you have questions regarding this process, please contact FMC's drive-thru testing site at 740-243-5059.

Thank you for your ongoing commitment to overcoming the coronavirus pandemic. Together, we can save lives. To learn more about additional testing sites, visit coronavirus.ohio.gov. To learn more about FMC's COVID-19 response and available resources, visit fmchealth.org.
