

HOW TO USE A PEDESTRIAN HYBRID BEACON (PHB)

HIGH INTENSITY ACTIVATED CROSSWALK (HAWK)

PEDESTRIANS

Push button to activate the system

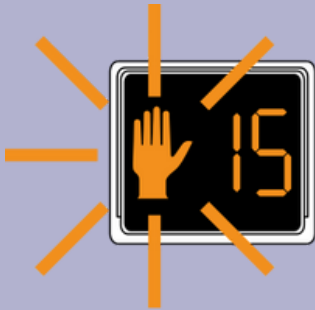

Wait for walk signal

Look for vehicles and start crossing when clear

Finish crossing but do not start. The signal will count down

DRIVERS

Proceed with caution (no lights activated)

Slow down - a pedestrian has activated the system (flashing yellow light)

Prepare to stop (solid yellow light)

Stop for a pedestrian - a pedestrian is in the crosswalk

Stop and proceed with caution, if the crosswalk is clear (flashing red lights)
