

State Route—29 Pavement Rehabilitation & Complete Street Project Newsletter

Issue No. 10 -- September 4, 2026

The future of State Route-29 (SR-29)

Take a look at the animation Caltrans Visualization put together. This is what we can all expect to see once this project is complete.

Lighting

Lighting has been going in the past couple weeks as crews should be completing this portion of the project this week. Next step to finalize the lighting is getting them activated. What does this mean? It means that they now need to get electricity flowing through it.

A total of 57 new light fixtures will be installed on Sonoma Blvd. This will create a more visibility for everyone using the corridor.

Paving is on its way!!

Crews are weeks away from paving. As of right now crews are looking to start paving on **September 21**.

Paving will be during the night when traffic is at its lowest. It will also be the safest conditions for both crews and public.

The following will be paved first: **Segment 1** (Sequoia Ave (Maritime Academy Dr.) to Curtola Parkway) and **Segment 3** (Mississippi St. to Napa/Solano County Line)

More specifics will be coming soon. Sign up to the mailing list to stay up to date.
