Safe Zone Ally Training

The Safe Zone Program at the Medical University of South Carolina is designed to reduce homophobia, transphobia, and heterosexism by raising awareness of the presence of the “isms” and their potential impact on individuals in our community. A Safe Zone is a place where one can feel free to talk about being marginalized on the basis of their real or perceived sexual or gender orientation without fear of criticism or hatred. The purpose is not only to say that you know, but ask yourself if you are willing to serve in an advocacy capacity for campus affiliates.

Unconscious Bias

Unconscious Bias is a normal part of human behavior. It helps us survive by helping us make snap decisions that can save us from danger or protect our families and livelihoods. But it can also intervene with our desire to appreciate others and be fair to all. We all strive to be aware of the judgements we make about others. But it takes practice to question your gut instincts.
