**Brandon Hotchkiss – KPHC (Epic) Regional Engagement Leader, NW and WA Regions - Kaiser Permanente**

Brandon Hotchkiss is the Regional Director for Kaiser Permanente's NW and WA regions. Brandon has oversight for the regional service and delivery of the EMR product in each of the regions he supports. In prior roles he led a team supporting Population Health and Analytics in the NW region, in addition to roles Managing the Outpatient EPIC products. Brandon has spent much of his career at Kaiser Permanente, prior to Kaiser Permanente he did Business Systems Analysis and Accounting. Brandon received his Business Finance degree from Portland State University.

**Lisa Johnson, BS, MA, IBCLC, Vice President of Community Technologies, Providence St. Joseph Health**

Lisa began her career working in business while leveraging her educational background which included a specialty in marketing. She grew programs and built partnerships in several areas before moving into the healthcare industry while finishing up her master's degree in Human Development, with a specialization in Lactation and Teaching Adults. Lisa's healthcare background spans clinical care in Women's & Children's, program development, Epic, project management, facilitation, strategic planning and leadership. In Strategic Planning & Business Development roles, she provided leadership in several initiatives, such as facilitation and management of a \$10 billion master facility plan that included rebuilding, updating, and adding new structures to support new services, additional growth, and future expectations. She has been a leader and innovator in implementing Epic's ambulatory and inpatient applications at affiliate clinics and hospitals. Her efforts resulted in a previous employer becoming one of the first three programs nationwide to attain Epic Connect Certification based on the organization's quality implementation strategy and successful deployments. She has a passion for optimal clinical care for the whole person. As a result, she worked directly with Epic and two healthcare entities to influence the development of the new Epic Social Care application, resulting in the ability to tie together clinical, behavioral health, spiritual and community resources to tell the full story of the patient and provide complete care. Lisa has regularly presented at Epic UGM and the Epic Connect Council and was elected for a Connect Advisory Board seat in 2018.
