"Diversity coming together"

Pragnya's Dinkchak Dandiya brings together individuals across the spectrum of neurodiversity to celebrate love, belonging, support, empathy and compassion within the circle of allyship during the festive season of Navratri.

WHAT IS NAVRATRI?

Navratri is a socio-cultural and religious Indian festival celebrated over 9 nights by people of all backgrounds regardless of caste, creed, religion, age, gender, and neurodiversity, putting aside all differences and worries by dancing to rhythmic beats in circles around a deity in the center.
