

ROBERTSON, LAUREN

LAUREN ROBERTSON

GPA: 3.5

Lauren is good at balancing multiple tasks at a time. She manages her time wisely by excelling in the classroom while gaining experience on research projects and leading through organizational involvement. I have seen other students asking her for tips on how to be more involved in organizations and she is always enthusiastic about helping her fellow classmates.

I have also grown to know Lauren personally. She is a caring, kind, goal oriented and passionate person. Her preparation for assignments, presentations, team meetings and project deliverables is exemplary and I have often referred other students to her for advice. I have interacted with many students within the pharmacy program, but I can truly say that Lauren is a sincere and talented individual. Her leadership efforts across our college and university has been exemplary.
