

CSG is Working Hard For You.

As we together continue to persevere during this challenging time, it's critical to know there are people and organizations that you can rely upon for services and the help you may need. CSG is designated as a provider of Essential Services throughout Virginia, Maryland and the District of Columbia. Our contractor base is similarly designated. Subject to future government pronouncements, we do not foresee any material change to our normal service delivery model.

The absence of tenants from office buildings presents a rare opportunity to accomplish certain noisy tasks without disruption or inconvenience. These may involve minor repairs or investigations of facades, roofs, terraces, parking structures and waterproofing concerns.

The health and safety of our clients and staff is of utmost importance to us, and we are equipped to meet with clients in small in-person meetings, virtual meetings as well as to communicate by email and phone to provide you with our **Building Envelope Consulting Services**. Our staff are all equipped with CDC mandated Personal Protection Equipment, and are available to service you on a 24/7 basis.

We invite you to visit our website at www.csngineer.com to see a listing of our consulting services and business lines designed to optimize CSG's service to you. Please reach out to contact Wayne Hosking, Principal, at 703-943-9984 – whosking@csngineer.com, or Tom Ouska, Director of Business Development, at 301-742-1123 – touska@csngineer.com.
