Subject: Request for Review of Judicial Oversight in *Melendres v. Arpaio*

Dear Ms. Bondi,

I am writing as a concerned citizen and taxpayer to respectfully request that the Department of Justice review the ongoing oversight of the *Melendres v. Arpaio* case, currently under the supervision of Judge Murray Snow and the appointed federal monitors.

What began as an effort to ensure accountability in law enforcement has now, after more than a decade, become an endless cycle of hearings, reports, and compliance reviews that appear to move the goalposts continually. Despite significant reforms within the Maricopa County Sheriff's Office (MCSO) and a demonstrated commitment to transparency, Judge Snow and the monitoring team have repeatedly expanded their mandates and extended their roles, resulting in millions of additional taxpayer dollars being spent with no clear endpoint.

Many local residents believe this process has shifted from oversight to an entrenched bureaucracy that benefits those administering it more than the people it was meant to protect. It is troubling that Maricopa County taxpayers remain financially burdened by this perpetual monitoring, even as the department meets or exceeds the compliance measures previously established by the court.

The citizens of Maricopa County deserve an impartial review to determine whether the continuation of this oversight serves a legitimate legal purpose or if it has evolved into an unjustifiable expenditure of public funds. I urge the Department of Justice to evaluate the current process, the scope of the monitor's authority, and the potential conflicts of interest that may exist due to the ongoing financial incentives tied to this case's duration.

Thank you for your attention to this important matter. Accountability and justice must be applied evenly — both to those being monitored and to those administering the oversight. I trust that your office will give this issue the serious consideration it deserves.

Respectfully,
[Your Name]
