Tuesday, April 28, 2026

1:00PM – 2:00PM via Zoom

Presented by: Johanne Pino from Massachusetts Advocates for Children (MAC)

This webinar will address the transition planning/services required for youth with disabilities ages 14–22 and will focus on the transition services districts should provide to prepare youth for employment, independent living, and further education. Parents and professionals will learn strategies that can help ensure students receive important transition services required by special education law. Information about the transition to the adult human service system will be provided, including Chapter 688, the state law that helps plan for youth with disabilities after they leave school.
