

HBCSD TOBACCO USE PREVENTION EDUCATION (TUPE) PRESENTS:

VICTOR DENOBLE, PH.D. SCIENTIST & ADDICTION RESEARCHER

PARENT WORKSHOP

MAY 12, 2022

4:00 TO 5:00 PM

ON ZOOM!

"Drug Addiction - It's All in Your Brain"

Please join us to learn about the brain & drug addiction.

This program provides scientific information about the disease, including the many harmful consequences of drug abuse.

- *What happens to your brain when using drugs*
- *Nicotine, alcohol, heroin, meth, cocaine and marijuana all impact your brain in different ways*
- *Using any drug over a period of time changes your brain*

**[CLICK HERE TO JOIN THE
PARENT WORKSHOP](#)**

Victor DeNoble, Ph.D., was hired by the Philip Morris Tobacco Company in the 1980's to research and study the effects of nicotine on the brain and was later fired because of what his studies revealed.

Dr. DeNoble became the first whistle-blower to begin tearing down the wall of secrecy built by the tobacco industry and was a key witness in the federal government case against the tobacco industry.
