MUSEUM OF DISCOVERY AND SCIENCE

MOBILE IMMERSIVE PROJECT-BASED LEARNING

Let us bring the MODS STEMobile to you! Our Mobile Makerspace delivers inquiry-based experiences to your school (grades PreK and up), organization or community center with unique and immersive STEM (Science, Technology, Engineering and Math) programming led by MODS educators. Programs can be customized for time, group size and age group. Free programs may be available, please inquire.

Select from:

To Fly
Blast off with the science of flight! Learners will make wind chutes and launchers while discovering the science of flight and the related aviation careers from the ground to the sky!

Clever Coders
Your programmers can become Clever Coders! Learners will explore how puzzles and patterns are the building blocks of codes with a mix of on-and-off-screen making activities sure to engage and challenge young minds!

Weather the Storm
Get ready for your class to be blown away! Learners will explore weather-related challenges and phenomena (hurricanes, floods or tornadoes) that lead to a making activity focusing on designing a creative solution to weather the storm.

Robot Petting Zoo
Introducing the MODS squad of interactive robots! Learners will experience how robots are constructed and coded through hands-on activities with our collection of diverse interactive bots.

Everglades Engineer
Your learners will become animal ambassadors and experiment with a variety of eco-friendly materials to design and engineer shelters, feeders and other backyard structures that will help native wildlife to survive in our urban environment.

STEAM
Full STEAM ahead! Learners will experiment with STEAM (Science, Technology, Engineering, Art and Math) using 3D designs, fabrics, sewing machines and creating 2D art with the latest equipment. Expand your artistic side.

Solar Power
How can the power of the sun become usable electricity? Learners will delve into the variety of solar options, construct solar power and bask in the power of the sun.

MUSEUM OF DISCOVERY AND SCIENCE

What to expect with your STEMobile visit.

During the program, participants can engage in hands-on experiences or making activities. Our staff will meet participants at your location – indoors or outdoors. Additionally, the Museum will provide tents, tables and all materials.

What are the STEMobile programs?

MODS offers a wide range of STEM-themes from aviation to weather exploration from coding to engineering challenges. Refer to the front page of this flyer for details. The Museum also can create customized programs to meet your needs (pricing may vary).

Who is the STEMobile for?

The STEMobile is for everyone! Learners of all ages are welcome, although programs can be designed for specific age groups.

- Hotels and Resorts
- Corporate Parties/Team Building
- After School Programs
- Private Events
- Kids' Zones
- Sporting/Community Events
- Schools/Nonprofits

What is the price?

Experiential Programs (60-minutes):

- One Hour: $350
- Two Hours: $650
- Additional hours can be booked at: $225 per hour

Schools/Nonprofits receive $25 discount per hour.

Make-and-Take Programs* (minimum 20 learners):

- One Hour: $375
- Two Hours: $675
- Additional hours can be booked at: $225 per hour
- Additional Cost Per Learners: $8

For inquiries or to reserve the STEMobile, please email booking@mods.org. All programs are first-come, first-served and subject to availability.

STEMobile made possible by The Frederick A. DeLuca Foundation

Programs sponsored by AECOM, Broward College, citrix, Florida Blue, FPL, PNC Grow Up Great

Additional support provided by Broward County Florida Cultural Division, Culture Builds Florida, Weston Nissan, Weston Volvo Cars
