THE WORLD HEALTH ASSEMBLY DIAGNOSTICS RESOLUTION: WHAT'S NEXT?

The World Health Assembly (WHA) passed the resolution, 'Strengthening diagnostics capacity' on 26 May. This is the first resolution that addresses diagnostics and urges member states to take 15 steps to strengthen diagnostics, and calls on the Director General of the World Health Organization to take an additional 16 steps. Sue Horton and Ken Fleming, two of the three lead authors of the Lancet Commission on Diagnostics will discuss what they hope to see happen following the resolution.
