

TEFILAH LAB: Mechanics and Meaning of the Siddur

Tuesdays, January 7–February 4, 6:45-8:00 pm

Led by **Hazzan Shoshi Levin Goldberg** and **Gladstein Rabbinic Fellow Ariana Capptauber**

The first part of the class will be dedicated to learning more about the content of the prayers and discussing their meaning to us as individuals and a community. We will dive into the back-stories of how and why certain prayers came into being. The second part will be dedicated to learning and building skills for leading tefilah, helping to grow new prayer leaders TIC. All are welcome, whether you've never led prayer before or are an expert looking to strengthen your skills with feedback.
