NURSERY SCHOOL
CREATIVE CORNER

A Recycling Alternative Focused on **TIKKUN OLAM**

The Nursery School at Temple Israel Center is collecting interesting objects from your home or business for our learners to repurpose and reuse. Your recyclables may wind up being a spaceship, a menorah or just about anything. Our learners will create and discover and learn first hand how they can recycle and repair the world.

We are looking for:

- Clean plastic caps such as the ones from laundry detergent, pouch pockets, milk, orange juice, etc.
- Ribbon, yarn, fabric and other left over materials from craft projects
- Tubes such as the ones from toilet paper and paper towels
- CDs, corks, spatulas and other kitchen utensils to be used for painting
- Towels, cloth napkins and other linens
- Items left over from a home construction such as tile, washers, wood scraps, sand paper
- Board games and puzzles (missing pieces are fine)
- Instruments for young children (shakers, cymbals, drums, bells, tambourines, castanets, triangles)

If you have a business and would like to participate, please contact Carol Meyers at c.meyers@templeisraelcenter.org or 914-948-2800 X 127.
