

FREE WEBINAR FOR MEMBERS!

Navigating AI-Driven Cyber Threats

DATE: Tuesday Mar 11, 2025; 11 AM - Noon PT

SPEAKER: Scott Hagizadegan, CEO of Shield IT Networks

When it comes to protecting your business from cyber threats, you need to be aware that regulations, risks and best practices are all evolving. This webinar covers what you need to know, including:

- **AI-powered attacks are on the rise:** Learn how cybercriminals are using AI for deepfake fraud, advanced phishing and real-time malware adaptation – and what you can do to counteract this.
- **Compliance & cyber insurance are changing:** Businesses must meet new AI-related security requirements or risk being left uncovered.
- **AI can strengthen your defenses:** Find out how AI-driven cybersecurity solutions can help detect and stop attacks faster.
- **Actionable Steps for Protection:** Get practical strategies for securing your network, training employees and using AI to enhance resilience.

Plus, find out how to take advantage of an exclusive offer for PIA members: A free AI Readiness & Cybersecurity Assessment.
