

What are you thinking?

I don't remember the show, it was a long time ago, but that asked you to watch the show and play along. You just might learn a thing or two.

Sometimes you must try new things to learn new things. So, lets play along and see if we can learn a few things about each other.

You might start to see an email, or a link on our FB page inviting you to complete a survey from SurveyMonkey. Don't worry, it is not a spam email, and it is not a trick. It is something new we would like to try at SOH. If you get the link, please complete the survey. Some might be just for fun, some you might learn something new, and some might teach you something about our council members. I will try to keep the questions interesting, the surveys short and not waste your time. Sometimes we might ask you about changes you would like to see in the church service. Maybe it will be about groups we have, or groups we think you might enjoy having at church.

For all the surveys, the results can be found in church the following Sunday.

If you think you know Karen better than anyone else, make sure you click the link when you see it. It might not be in the first survey, but I am sure we will learn something about her soon!

I hope you enjoy this, and don't worry we will send out a survey about the survey in a few weeks.

In the meantime, play along, and we might just learn a thing or two!

Duane Gilson
