Join the Office of Early Childhood Coaching Community of Practice

Do you provide early childhood coaching-related support? Are you interested in sharing best practices and problem solving each month with your peers across Colorado?

Join the new CDHS Office of Early Childhood Coaching Community of Practice (CoP) on the first Tuesday of each month, starting March 2, from 1:00 p.m. to 2:30 p.m.

A community of practice (CoP) is a group of people who come together because of shared interests, to reflect on real-life professional challenges and build collective knowledge. This CoP will provide a space for early childhood coaches to share ideas, experiences, tools, and resources. Participation is free!

Here we will connect to:

- Help people feel less alone in their work
- Improve professional practice and invigorate your passion for your work
- Motivate growth and build upon ideas
- Give/receive support and feedback in a neutral environment
- Norm on strategies grounded in coaching research, best practice and Relationship-Based coaching

To receive professional development hours/certificate, please register for Coaching Community of Practice in the Colorado Shines PDIS.
