New Professional Development Information System (PDIS) Courses

Have you ever wondered how to best promote the learning and achievement of every child you support? What if every early childhood program served the needs of every child? Learning about inclusive practices and environments for children with delays and disabilities is 62517 just what you need! Early childhood inclusion supports the right of every infant and young child and his or her family, regardless of ability, race, or gender to participate in activities as full members of communities and society.

In the *Supporting Young Children through Inclusive Care* course you will increase your knowledge of access, participation and support for children with delays and disabilities, as well as how you can incorporate inclusive practices into your work.

In the *Introduction to the Early Intervention and Preschool Special Education Programs*, you will increase your knowledge about Early Intervention and Preschool Special Education; how to talk to families about concerns; and how to support referrals to these programs.

Accessing these high-quality, no-cost professional development opportunities can help you:

- Assure every child has a sense of belonging
- Advocate for the importance of early childhood
- Engage and support your families.

Both of these one-hour, online courses can be found on the Colorado Shines PDIS and count toward Level 2 clock hours. They are both available in English and Spanish.
