

Receive the Baptism of the Holy Spirit

Once you become a child of God, your loving heavenly Father wants to give you a supernatural empowerment so that you can live the exciting new life He has in mind for you. According to the Bible, all you have to do is ask Him for it and then believe that you receive it the same way you believed that you received salvation and eternal life when you simply asked Him for them.

Just pray the following way and believe:

Father God, I recognize my need for Your power to live this new life the way You want me to. I acknowledge that when I was born again I received your Holy Spirit to dwell in me and I ask you for the full release of His power which I now receive as an act of faith according to the promise in Your Word.

That's all it takes to receive the fullness of God's super-natural power and now that it has come upon you, some syllables from a language you don't recognize will begin to rise up from your inner person and into your mouth (1 Corinthians 14:14). As you speak them out loud by faith, you'll be releasing God's power from within and it will strengthen you (1 Corinthians 14:4).

The Bible calls this "*Speaking in Tongues*" and you can do this whenever and wherever you choose. When you speak this way, direct it to God in the form of a prayer and even though you may not understand what you are saying, God WILL understand because it will be the Holy Spirit within you giving the utterances you're speaking.

You can also ask Him for the related interpretation which you can receive by faith just like any other communication from God. Test it against the Word and your inner witness and if it passes the test, run with it by faith.
