#### Logic Model

## **Coalition: Wood County Prevention Coalition**

## Problem: Underage Drinking

**Root Cause 1:** Favorable Youth Attitudes (Low Perception of Risk)

**Measure, Data, Source & Date #1:** Only 41.7% of 12<sup>th</sup> graders feel it is "very wrong" if friends consume one-two alcoholic beverages every day (Wood County Youth Survey 2024).

**Measure, Data, Source & Date #2:** Only 25.7% of 12<sup>th</sup> graders perceive great harm from having 1 or 2 alcoholic drinks every day (Wood County Youth Survey 2024).

#### **Problem:** Underage

Drinking

### Measure, Data, Source & Date #1:

29.3% of 12th grade females report use of alcohol within a one-year period (Wood County Youth Survey 2024).

Measure, Data, Source & Date #2:

16.5 % of 12th grade males report use of alcohol within a 30-day period (Wood County Youth Survey 2024).

# Local Conditions (Specific, Identifiable, Actionable)

### Local Condition 1a:

Youth binge drink alcoholic beverages.

**Measure, Data, Source & Date #1:** 10% of 9-12 graders binge drank alcohol w/i a couple of hours one day within last 30 days (2022 Wood County Health Assessment).

**Measure, Data, Source & Date #2:** 4% of youth aged 14-16 yeas binge drank alcohol within the past 30 days (2022 Wood County Health Assessment).

### Local Condition 1b:

Youth mix drinking and driving.

**Measure, Data, Source & Date #1:** 10% of 6-12 graders (subgroup survey) rode with a driver who had been drinking alcohol (w/i past 30 days) (2022 Wood County Health Assessment).

**Measure, Data, Source & Date #2:** 3% of 9-12<sup>th</sup> graders drove when they had been drinking alcohol at least once in the past 30 days (2022 Wood County Health Assessment).

**Local Condition 2a:** Parents purchase/provide alcohol for their children and their friends.

Measure, Data, Source & Date #1: 13% of Wood County Youth say a friend's

parent gave them alcohol (2022 Wood County Health Assessment).

Measure, Data, Source & Date #2: 29% of youth drinkers say a parent provided them with their alcohol (2022 Wood County Health Assessment).

Local Condition 2b: Parents host parties providing alcohol to youth.

## Measure, Data, Source & Date #1:

**Attitudes Favorable Toward Use** 

Root Cause 2: Parental

10.9% of 12<sup>th</sup> graders did not feel parents would think it was "wrong" or "very wrong" to have one or two drinks of an alcoholic beverage nearly every day (2024 Wood County Youth Survey).

Measure, Data, Source & Date #2: Only 20% of parents discussed negative effects of alcohol w/their children (2022 Wood County Health Assessment).

Measure, Data, Source & Date #1: 5.7% of 11<sup>th</sup> graders indicate parents provided alcohol for parties (Wood County Youth Survey 2024).

Measure, Data, Source & Date #2: Measure, Data, Source & Date #2: 6.5% of 12<sup>th</sup> graders indicate parents provided alcohol for their parties (Wood County Youth Survey 2024).
