

# Healthy Moms, Healthy Babies

**WE SUPPORT EXTENDING THE POSTPARTUM COVERAGE UNDER MEDICAID TO 12 MONTHS.**

- In 2019, **41.5% of births** in Michigan were covered by Medicaid – eligibility up to 195% federal poverty level.
- Without the extension, women with household incomes below **\$42,354 for a family of three** lose their coverage at 60 days postpartum.
- Counties with the highest percentage of births funded by Medicaid are spread across **rural and urban areas**.

## Medicaid Paid Births

Single year, 2019

## Maternal Mortality Among Those With Medicaid at Birth (2013-2017)

**DURING  
PREGNANCY/  
DELIVERY**

**1 - 42 DAYS  
POSTPARTUM**

**43 DAYS +**

## Pregnancy-Related Mortality For All Births

In 2013-2017, according to data submitted to the Michigan Maternal Mortality Surveillance, **388 women died during pregnancy or in the following year.**

**19 percent** of those deaths were directly related to the pregnancy and over half of those were determined to be **preventable** with 13 percent occurring after 43 days.

AMNIOTIC FLUID EMBOLISM 9.8%

OTHER MEDICAL NON-CV CONDITIONS 13.1%

CARDIOMYOPATHY 13.1%

THROMBOTIC/PULMONARY EMBOLISM 14.8%

INFECTION/SEPSIS 14.8%

HEMORRHAGE 14.8%

## Causes of Pregnancy-Associated – Not Related – Injury Deaths (2013 - 2017)

- The majority of maternal deaths are determined to be pregnancy-associated with **preventable causes**.
- The majority of these deaths are tied to **medical causes, behavioral health and substance use** and the proportion has been increasing.
- In 2018, **16 percent of women were diagnosed with significant postpartum depression** with over 25 percent of women reporting depressive symptoms in the prenatal and postpartum period.

### EXTENDING POSTPARTUM COVERAGE...

- » **ENSURES** continuity of health care for women postpartum for medical concerns arising from pregnancy and can avoid costly—and sometimes fatal—complications.
- » **REDUCES** stress of finding new insurance, changing providers or navigating financial hurdles.
- » **SUPPORTS** ongoing behavioral health and substance use disorder treatment to keep mom healthy and engaged in parenting.
- » **ALLOWS** women to maintain their health, focus on family and make plans to return to work or school.
- » **PROMOTES** healthy development for baby and avoids trauma.
