

Dear SCS Families,

Below is the process when an individual student has to quarantine due to COVID-19 exposure:

- Please notify Ms. Ward at mward@scsgators.org , Nurse Christine at cjenevein@scsgators.org and the appropriate grade-level assistant principal. (PK3-3rd: Amanda Gelpi at agelpi@scsgators.org) or (4-7th: Alex Scamardo at ascamardo@scsgators.org).
- Once school has been notified Nurse Christine will contact family via phone to establish the date of return. Nurse Christine will then contact administration and teachers as to date of return.
- Teachers will then contact students/families via email regarding assignments and work that should be completed. Depending on grade level, work will be available online or for pickup at school.
- If there are questions regarding assignments, please contact the teacher directly. Assessments may be given online or when the student(s) returns. This will be up to the discretion of each teacher.

The following is an educational resource that can assist students on learning concepts that are missed in live classroom sessions due to quarantine. We will continue to research and add to this great resource. As always please ask your child's teacher for recommended grade level appropriate resources.

www.khanacademy.org

We also ask that if any person in your household plans to get a COVID-19 test or are awaiting a COVID-19 test please keep your child home. This is for the safety of your child's class and teacher(s). Thank you for your understanding.

Thank you for your continued support!
Ms. Ward, Principal
