

**DATE:** 25 March 2026

**TO:** S-O North America

**SUBJECT:** Product Requirements for Sales to California

Design Master is committed to maintaining full compliance with evolving regulatory standards. As part of this commitment, we are notifying you of an important update related to California Proposition 65 that may impact how certain Design Master® products are sold.

Although a business may not be in California, these requirements may still apply if Design Master® products are sold via catalog or online channels that can reach customers in California.

Any business with catalog or internet sales that have the potential to reach California should review the additional details provided and take any required actions to remain compliant.

If you have any questions, please contact me. Thank you for your attention to this update and your continued partnership.

Best regards,

Tonette Majka  
Global Marketing Manager  
Design Master, A Division of Smithers-Oasis

## THE DETAILS

- **Required Design Master® product labels are being updated** to include the necessary Proposition 65 product label warning information. Because this is a rolling change, there may be a transitional period during which some distributed products do not yet display the updated warning. All products will be compliant by the required date of January 1, 2028.
- **If your catalog or internet sales can reach customers in California, and your business has 10 or more employees**, you are required to implement a Proposition 65 warning near the affected product prior to online and catalog purchases. Product sellers are responsible for placing the new warning online within 60 days after receiving a warning or written notice about the need for a warning from a manufacturer.
- **For Internet Sales:** Compliance requires placing either the full warning or a clearly marked hyperlink using the word **“WARNING”** on the product display page, or otherwise ensuring the warning is prominently shown to the purchaser before checkout.
  - A. A full warning on the product display page, or
  - B. a clearly marked hyperlink using the word **“WARNING”** on the product display page that links to the warning, or
  - C. an otherwise prominently displayed warning provided to the purchaser prior to completing the purchase. The warning is not considered prominently displayed if the purchaser must search for it in the general content of the website.
- **For Catalog Sales:** Compliance requires placing the warning *within the catalog* in a way that clearly associates it with the item being purchased. “Catalog” refers to any printed or digital product list used for sales solicitation.
- **Required Content for Internet and Catalog Sales:**
  1. a symbol consisting of a black exclamation point in a yellow equilateral triangle with a bold black outline. Where the information is not printed using the color yellow, the symbol may be printed in black and white. The symbol shall be placed to the left of the text of the warning, in a size no smaller than the height of the word **“WARNING”**, and:
    - Download warning symbol [here](https://www.p65warnings.ca.gov/business-resources/compliance-assistance-and-sample-warnings/warning-symbol) (<https://www.p65warnings.ca.gov/business-resources/compliance-assistance-and-sample-warnings/warning-symbol>)
  2. the word **“WARNING:”** in all capital letters and bold print, and:
  3. the warning statement as seen in Exhibit A.
    - Exhibit A content must be displayed in English and Spanish. Because the Design Master® product label includes required information in a language other than English, the Prop 65 warning must be provided in that language in addition to English for catalog and internet sales.
- **Warning Statement Type Size:** There is no specific type size requirement for general safe harbor consumer product exposure warnings. However, to qualify for safe harbor protection, the warning must be prominently displayed with such conspicuousness as compared with other words, statements, or designs, as to render the warning likely to be seen, read, and understood by an ordinary individual under customary conditions of purchase or use.

**EXHIBIT A: DESIGN MASTER® PRODUCTS AND PROPOSITION 65 WARNING STATEMENTS**

The following statements are required relative to the specified Design Master® products in addition to the warning symbol and warning word noted in the previous details.
