Opening Prayer

Introductions - A new member joined us this week, Mike Kelly, so we did introductions.

Finances - After a mailing campaign was ruled out, we turned back to the idea of local publications as a way to raise awareness. A number of papers and radio stations were discussed, and various people will be following up on their contacts to pursue these.

Housing - Zoning and building permits were discussed, progress was made on finding contractors, and a rough budget is being assembled.

Education - The school is able to provide some technology to aid in Oliver's schooling, which is going well.

Family Update - Some medical services are being offered pro bono by a clinic in Superior.
