

Fire Prevention Week - Cowlitz 2 Fire & Rescue

Our Fire Prevention Week Open House is October 11th this year, and we'd love to have you participate! The theme this year is "Charge into Fire Safety!"

The Open House will take place at our Headquarters Station at 701 Vine St in Kelso on October 11th from 11am to 2pm. Visitors will see the fire department, tour the fire trucks, learn great safety tips at our interactive educational booths, and of course there will be food!

We would love to have you participate! This year, we are giving you the option of hosting an informational booth where you can hand out your own materials, or hosting a safety activity where we provide the materials. You will need 2-3 volunteers to run an activity, and of course, you are welcome to also hand out your materials and promote your organization at the same time.

Available booths include:

Informational Booth	Stove Safety	Fire Truck Races
You will hand out your own materials.	Families will learn about the No Kid Zone in the kitchen, and how to put out a grease fire.	Build a fire truck with a kit and then race it to win prizes!
Stop the Bleed	Safe or Not Safe	Your Choice
Families will learn how to stop life threatening bleeding with pressure, packing, and tourniquets.	Families will discuss things like matches, lighters, firefighters, candles, and decide if they are safe or not safe	Do you have a fantastic safety activity you'd like to share with our visitors?

To sign up, please return the enclosed **Booth Sign Up Form** by Thursday, September 18th, by 3pm. Consideration for activity choice will be given to organizations that respond first. Thank you for your time and I hope to hear from you soon.
